

The dairy farm

By: Carly Devries

Did you know about the cows just beside carenport that's the dairy farm did you know there's no caving season its everyday I will be telling you about the types of cows facts food they get like the cows get and a day in a dairy cow life

A day in a dairy cow life

it only takes a few minutes to milk a cow so how do they spend the rest of their day the answer involves a lot of drinking eating resting and even a bit of socializing and an average cow usually spend around 10-12 hours a day lying down

Facts

The oldest cow on the dairy farm is 9 years old. The people on the dairy farm name the Jersey's names and the cows can look red too.

types of cows

at the dairy farm there are a few types of cows one is holsters another is Jersey's and beef crosses the jersey's are brown and can be brown and white

holstens are white and black or just black beef crosses cows are white and black or just black

So that's all about the dairy farm and it matters because then some of Canada can I have milk now you know about the food they get like the cows the types of cows a day and a dairy cow life and now you know more about the dairy Farm
